 (Signature of person mailing paper or fee)

**COMMUNICATION**

Commissioner for Patents  
 P.O. Box 1450  
 Alexandria, VA 22313-1450

Sir:

This is in response to the Office Communication dated July 15, 2003, setting a one-month term for reply, i.e. a response was due on August 15, 2003. This correspondence would have been deposited with the U.S. Postal Service on that date, but for the designated interruption or emergency in "Express Mail" service, caused by a power outage in the northeast. Therefore, no fee is believed to be due for entry and consideration of this paper; however, the Commissioner is authorized to charge any fee occasioned by this paper, or credit any overpayment in such fees to Deposit Account No. 50-0320.

The Office Communication indicated that this application fails to comply with the requirements of 37 CFR 1.821-1.825 because Figure 15 contains two nucleotide sequences that

PATENT  
674523-2020

have not been identified with SEQ ID NOs. The Office Communication goes on to state that the sequences were not listed in the paper copy, in the computer readable format, or in the specification.

The Examiner's attention is directed to SEQ ID NOs: 4 and 5 of the Sequence Listing submitted on November 29, 2001. These sequences correspond to the sequences shown in Figure 15. Further, the Preliminary Amendment that was filed with the Sequence Listing on November 29, 2001 inserted a reference to these sequences in the specification. (See the first sentence on page 2 of the Preliminary Amendment.)

Accordingly, this application is believed to be in compliance with 37 CFR 1.821-1.825. Applicants look forward to examination of this application on the merits.

Respectfully submitted,

FROMMER LAWRENCE & HAUG LLP  
Attorney for Applicants
